PACIFIC CLIMATE GROUP

B / GENERAL BUILDING

CALIFORNIA

TECHNICAL DEPTH. WHOLE-BUILD THINKING.

One build.
One team.

General building with technical depth.
From site preparation to systems and turnover.

THE PARTNERSHIP BEHIND THE WORK

Mechanical and materials engineers with field experience across HVAC, plumbing, earthwork and building.

WHAT PCG BRINGS TO THE PROJECT

01

Clear scope from the start

We clarify trade boundaries and bring practical options to the table while decisions can still shape the build.

02

Connected construction

We connect sitework, structure and building systems with the architecture and construction sequence.

03

Care before close-up

We give concealed work and trade handoffs the attention they need before the next phase begins.

ONE ACCOUNTABLE GENERAL BUILDING PARTNER

B-licensed general building supported by A, C-12 earthwork, C-20 HVAC and C-36 plumbing.

We manage coordinated building scopes and qualified specialty trades under one contract.

Residential, multifamily and commercial projects. A whole-building view from start to finish.

PCG advantages.

THREE PRIORITIES. ONE ACCOUNTABLE PARTNER.

WHAT YOUR PROJECT GETS	BASIC BID*	PCG
SCOPE GAPS AND LATE DECISIONS **Clear scope. Earlier answers.** We connect trade scopes, surface questions early and explain practical options so owners and design teams can make informed decisions.	✗	✓
DISCONNECTED TRADE SEQUENCES **One plan across the build.** Our engineering backgrounds and license portfolio help connect site preparation, building work and MEP trade handoffs.	✗	✓
HIDDEN WORK AND CLOSEOUT GAPS **Details that carry through.** We review concealed-work interfaces before close-up and coordinate the remaining work with a successful handover in mind.	✗	✓

*Illustrative installation-only bid; added commitments are not stated.
Red cross = not included in this example. Contractor capabilities vary.

Mechanical and materials engineering backgrounds. A, B, C-12, C-20 and C-36 licenses. General building, sitework, HVAC and plumbing under one umbrella.
